

Biography

Greg Ankney

Vice President, Supply Chain

Greg Ankney is Vice President of Supply Chain at SSP. Greg plays a vital role in the organization by developing and implementing a comprehensive Planning System. This system is designed to ensure that operations meet customer lead time expectations while maintaining an efficient flow throughout the plant.

Greg brings a wealth of experience to his role at SSP. He holds a BS in Electrical Engineering from Rose-Hulman and an MBA in Operations from Indiana University. Prior to his current position, he has held various roles in Engineering and Manufacturing Management, working in locations around the world from Singapore to Slovakia. He has been a part of the SSP team since 1997.

In his free time, Greg enjoys spending time with family and friends, particularly his three college-aged children.
