

Griplok® Tube Fittings

Griplok® two-ferrule tube fittings provide leak-tight installation when intermixed with Hoke® Gyrolok® fittings, provided they are used in accordance with SSP Fittings' published installation and service recommendations.

To provide a reliable, leak-proof connection in instrumentation and process tubing systems, Griplok tube fittings consist of four precision-machined components: **① Body**, **② Front Ferrule**, **③ Rear Ferrule**, and **④ Nut**.

Lifetime Warranty

Griplok tube fittings are covered by a lifetime limited warranty. Visit www.mySSP.com for details.

Griplok Tube Fittings

INSTALLATION INSTRUCTIONS

1. Remove the tube fitting from protective bag.
2. Fully insert the tube into the Griplok tube fitting body, then hand tighten the Griplok nut. See Figure #1
3. While holding the fitting body stable with a back-up wrench, scribe the nut for a reference point and wrench-tighten 1 and 1/4 turns. See Figures 2 and 3.
