

Ordering Instructions

- ① Locate the Basic Part Number for the valve end connection type(s) and size(s).
Example: 306.
- ② PTFE seats are standard. For PCTFE seats add -K to the part number.
Example: 306-K.
- ③ Add the Body Material Designator to the part number. Add -316 for 316 stainless steel. Add -B for Brass.
Example: 306-K-316.
- ④ Add designators for other options in alphabetical order. *Example 306-K-316-LOH-BN.*

Note: The Basic Ordering Numbers and Dimensions tables contain only the most popular valve configurations; more are available. If the required valve configuration is not in the Basic Part Numbers and Dimensions tables, contact your local Authorized SSP Instrumentation Distributor or Contact SSP Customer Service - customer.service@mySSP.com.
