

Ordering Instructions

- ① Select the basic ordering number from the Part Numbers and Dimensions table based on the end connections for the valve. *Example: 208*
 Note: Duolok 2-ferrule tube ends are standard on tube ended valve. For Unilok single-ferrule or Griplok dual-ferrule ends see the options.
- ② For angle valves, Add "A" to the beginning of the part number. *Example: A208*
- ③ Add the body material designator to part number. *Example: A208-316.*
- ④ Add Options and Accessories to the end of the part number in alphabetical order. *Example: 200-316-U*

A 208 **B** -316 **C** -U

A **BASIC PART NUMBER**
 See *Toggle Valve Catalog*
 For Basic Part Numbers
