

Pipe, Weld, and Adapter Fittings

TruFit® & TruFit10K® Instrumentation Fittings

- ✓ 1/16 to 2 in. sizes
- ✓ NPT, BSP, and SAE threads
- ✓ Tube and Pipe Socket and Butt Weld
- ✓ 316 SS, Alloy 400, Alloy C-276, carbon steel, and brass
- ✓ AN 37° Flared

www.mySSP.com

At SSP, we are proud to be an American manufacturing success story.

100% of our products are made in America. All of our manufacturing is performed in our 165,000 sq. ft. facility located near Cleveland, Ohio. Our facility is the largest vertically integrated, single-site operation in the industry. In addition to manufacturing and assembly, we have closed die forging, tool & die design, product engineering and testing operations under the same roof with customer service and management.

Made in America is good business. Not only do we make everything in America, we use American suppliers too. Buying American allows us to have better quality control and a more reliable supply chain. We can work more closely within our walls and with our suppliers to improve quality, reduce costs, and shorten lead times, which means faster service and better products for you.

Support where it counts. SSP products and services are supported by more than 4000 people and 350 distributor locations around the globe. For a distributor near you, contact SSP Customer Service or visit www.mySSP.com/distributors.

SSP Industry Standard Products.
Made Better.

Instrumentation Pipe Fittings

TruFit® Pipe, Weld & Adapter Fittings

SSP has been manufacturing pipe fittings for more than 75 years. TruFit instrumentation pipe fittings are manufactured with high-quality NPT, BSP, and SAE threads, AN 37° flared, and tube and pipe weld ends. Straight, elbow, tee and cross fittings can be configured with end connections from 1/16 to 2 in. TruFit pipe fittings are available in 316 stainless steel, Alloy 400, Alloy C-276 and brass. Other alloys are available on request.

TruFit10K® Fittings

SSP also offers TruFit10K fittings. Each fitting has a pressure rating of at least 10,000 psig (689 bar). They are available in 316 stainless steel in sizes from 1/16 to 1 in. NPT with BSP, SAE and AN end connections.

Product Design

Technical Information

TruFit Pipe and Weld Fitting Applications

Parameter	Tapered Thread	Straight Thread	Weld Ends
Pressures (ASME 31.1)	High to 10,000 psi Static systems only	High to 10,000 psi Dynamic and Static	Very High to 15000 psig Static and Dynamic
Temperatures	Stainless: -425° to 1200°F Brass: -40 to 400°F Alloy 400: -65 to 800°F	Nitrile: -30° to 250°F FKM: -15° to 400°F Copper: -315 to 400	Stainless: -425 to 1200°F
Vibration Resistance	Fair	Very Good	Excellent
Sizes	1/16 to 2 in.	#4 to #32	1/8 to 2 in.
Dynamic Temperature/Pressure	Good in static systems Poor in dynamic systems	Excellent in static systems. Very good in dynamic systems	Excellent. Permanent joints. Highly resistant to vibration
Easy of Maintenance	Limited breaks and remakes due to metal deformation of threads	Very good. Virtually unlimited remakes. O-ring replacement only	Permanently assembled

TruFit 10K Application Information

Parameter	Tapered Thread	Straight Thread
Pressures (ASME 31.1)	10,000 psi minimum Static systems only	10,000 psi minimum Dynamic and Static Systems
Temperature Range	Stainless: -425° to 1200°F	Nitrile: -30° to 250°F FKM: -15° to 400°F
Vibration Resistance	Fair	Very Good
Size availability	1/8 to 1 in.	#4 - #16
Dynamic Temperature/Pressure	Good in static systems Poor in dynamic systems	Excellent in static systems. Very good in dynamic systems
Maintenance	Limited breaks and remakes due to metal deformation of threads	Very good. Virtually unlimited remakes. O-ring replacement only

Thread Standards

Type	Designator	Standard
NPT (Tapered)	—	ASME B1.20.1
ISO/BSP (parallel) (Based on DIN 3852)	RS	ISO 228, JIS B0202
ISO/BSP (tapered) (Based on DIN 3852)	RT	ISO 7, BS EN 10226-1, JIS B0203
Unified (SAE)	ST	ASME B1.1

Material Standards

Material	Bar	Forging
316 SS	ASTM A276, ASME SA479, EN 1.4401	ASTM A182, ASME SA182, EN 1.4401
Alloy 400	ASTM B164	ASTM B564, ASME SB564
Alloy C-276	ASTM B574	ASTM B564
Brass	ASTM B16, ASTM B453	ASTM B283
Carbon Steel	ASTM A108	—
Alloy 20	ASTM B473	ASTM B462
Alloy 600	ASTM B166, ASME SB166	ASTM B564, ASME SB564
Alloy 625	ASTM B446	ASTM B564, ASME SB564
Alloy 825	ASTM B425	ASTM B564, ASME SB564

Pressure - Temperature Ratings

Tables 1 contains typical pressure ratings for male and female NPT and BSP tapered pipe thread ends at ambient temperature. Table 2 provides pressure ratings for SAE and BSP straight pipe thread ends. Table 4 contains derating factors for determining pressure ratings for tapered fittings at higher temperatures. Table 5 lists temperature ranges for FKM and nitrile O-ring sealed ends. For more more information about pressure ratings, contact SSP customer service.

NPT/ISO Pipe Size	Size	316 SS				Brass				Carbon Steel			
		Male		Female		Male		Female		Male		Female

1 1/2	2,400	166	1,800	124
2	1,800	124	1,500	104

Material	Value
316 SS	20,000 psi (1378 bar)
Brass	10,000 psi (689 bar)
Carbon Steel	20,000 psi (1378 bar)

Temperature Ratings

To determine the maximum allowable working pressure for the piping systems at elevated temperatures, multiply the applicable maximum allowable working pressure by the corresponding temperature stress factor from Table 4. System temperatures may be limited by the thread sealant or when applicable, the gasket or O-ring materials. See Table 6 for O-ring materials temperature ratings.

Temperature		Stainless Steel		Carbon Steel	Copper	Alloy 400
°F	°C	304SS	316SS			
100	38	1.00	1.00	1.00	1.00	1.00
200	93	1.00	1.00	0.96	0.80	0.88
300	149	1.00	1.00	0.90 ¹	0.78	0.82
400	204	0.94	0.97	0.86 ¹	0.50	0.79
500	260	0.88	0.90	-	-	0.79
600	316	0.82	0.85	-	-	0.79
700	371	0.80	0.82	-	-	0.79
800	427	0.76	0.80	-	-	0.76
900	482	0.73	0.78	-	-	0.43
1000	538	0.69	0.73	-	-	-
1200	649	0.30	0.37	-	-	-

¹Temperature limitation of Zinc coating (375°F) used on carbon steel fittings.

Material	Max. Temperature
316 SS	1,200 (649)
Brass	400 (204)
Carbon Steel	375 (190)

Material	Temperature Range °F (°C)
FKM	-15 to 400 (-26 to 204)
Nitrile	-30 to 250 (-34 to 121)

Safety

Important

To help ensure the safe and reliable performance of TruFit products, complete system design must be considered prior to installation of the pipe, tubing and fittings. **Determining the design compatibility of materials, media, flow, temperatures and pressures; as well as implementing proper installation, operation and maintenance of the system are the responsibilities of the systems' owner, designers and users.**

Safety Reminders

All SSP products are designed and manufactured with safety in mind. The following is a limited list of general safety tips as reminders for good safety practices:

- Do not install, tighten or loosen a fitting or adapter while the system is under pressure.
- Do not loosen a fitting, nut or plug to relieve or bleed pressure.
- Always use a back-up wrench to hold the pipe or pipe fitting body steady when tightening or loosening.
- Use proper thread lubricants and sealants on tapered pipe fittings.
- Tube fitting end connection and tubing material should be similar (stainless steel fittings on stainless steel pipe, brass fittings on copper tubing, with the tubing materials being fully annealed).
- Do not weld tube fittings that are assembled. Prior to welding, remove all components, nuts, ferrules, and seals. Protect the sealing and thread areas of the tube fitting by covering with a plug or another nut.

How to Order

The Trufit Pipe Fittings Catalog contains part numbers for the most common fitting types and sizes. Other configurations are available. To request other configurations, use the guides on pages 7 and 8 to build a part number or contact SSP customer service.

More SSP Products

Tube Fittings

Duolok® and Grielok® (two-ferrule) and Unilok® (single-ferrule) tube fittings ensure leak-tight installation when intermixed with Swagelok®, Hoke® Gyrolok®, and Parker® CPI™ fittings, provided they are used in accordance with SSP Fittings' published installation and service recommendations.

Valves

The SSP valve offering includes ball, check, metering, needle, toggle, plug, bleed, and purge valves for pressures up to 10,000 psig.

Quick Connects

SSP offers single-end shutoff, double-end shutoff, and full-flow quick connects for instrumentation and process applications.

Pipe Fittings

TruFit and TruFit 10K pipe fittings are available in a wide range of weld, threaded and flared connections.

Filters

SSP in-line and tee-type filters trap particles to clean sample fluids and protect sensitive process and analytical instrumentation components and equipment.

Tools & Accessories

SSP TurnPro professional hand tools, power tools and installation training make quality tube system installation faster and easier.

Founded 1926

Privately owned, third generation business

Modern single-site vertically integrated manufacturing facility

DFARS-compliant raw material

ISO 9001 quality management system

Limited Lifetime Warranty
